REPORT OF THE BOARD OF EDUCATION.

As the school year of 1889 is past it is eminently fitting that we give a new recital of the events connected with our schools and school work; trusting that parents and friends will be lenient with our faults, remembering that "To err is human," we respectfully submit to you the following report:

SCHOOLS.

We have given each school a name corresponding to its locality, as the old district numbers are unfamiliar to many.

With one exception, each school has received a spring and fall term of eight and twelve weeks. For want of a suitable school-house at East Sandwich early in the fall term of '88 the school was closed. We have given them, this year, a spring term of eight, a fall term of ten and a winter term of eight weeks.

In the spring Mrs. C. I. Wallace was engaged to teach three hours daily, the four scholars in her neighborhood, in place of transportation. In the fall a regular school was taught in the school-house.

Albany sending no scholars to school in Sandwich as formerly, we were obliged to bear the whole expense of both terms at Birch Intervale, and the eleven different scholars made it necessary to run a school at the Ethridge school-house.

TEACHERS.

A teacher should possess a wide and varied education—

"For little way his learning reaches,
Who reads no more than what he teaches."

A high moral character with a faculty for placing the subject before their pupils in a variety of forms so as to interest the different minds.

Our teachers were required to pass a written examination before receiving their certificates, and received \$5.00 per week for their services, except at Birch Intervale where the small number of scholars did not warrant our paying over \$4.00. Every teacher was instructed to require and if need be assist their pupils to write a composition each week and to correct and preserve the same for inspection, and of the sixteen different teachers employed during the past year, we believe all have accomplished something for the good of their pupils in this respect. Five taught the same school both terms.

PARENTS.

We are glad to note an improvement on the part of parents visiting schools, which we hope will continue till parent and teacher become better acquainted and better prepared to develop the faculties of their children. The best scholars are those that study at home and whose parents assist them thereby creating the habit of studying when out of school during the long vacations.

If your children bring an evil report of their teacher hear the other side before you condemn. If you will only interest yourselves in schools, give your influence and your sympathy, your friendship and your support you will help to raise the moral and intellectual scale of mankind.

DISCIPLINE.

Many of the teachers were inexperienced, and that system in management, expected of older ones was not found. We think there is chance for improvement in this respect by the greater part of the teachers. Teachers were instructed to forbid whispering, asking of questions during recitations, indecent or disrespectful language in or around the school-houses. In some cases we are sorry to say teachers did not comply with our instructions. Where home training is good teachers find no difficulty in keeping good order at school.

TEXT BOOKS.

It was thought best to exchange Lippincott's old series of readers for the new. With this exception no changes have been made for several years, anticipating the Free Text Book law which was enacted last June. It is our opinion that now is the time for an almost complete change in our school books, for all books must be furnished by the town and the later and improved editions cost no more than the old.

CONDITION OF DISTRICT.

The new school-house at East Sandwich gives good satisfaction and reflects much credit on the builders. The \$100 raised for repairs and a part of the 5 per cent. enabled us to sheathe, paint and put two new doors into the school-house at the Centre, re-clapboard the front end and re-nail the sides of the house at Great Rock, build a privy for the Fellows' school and slate several blackboards. There are still several repairs to be made, the shed at Whiteface, the underpinning of the North Sandwich school-house and the floor timber of the Lower Corner house demand immediate attention.

SUMMARY.

The total amount of money raised for the support of schools was \$1439.84 including the 25 per cent. raised by vote of town which amounted to \$213.50 and the increase of \$57.81 in the Literary Fund. We were enabled to give twenty weeks of school to the 275 enrolled scholars in town, at an average expense of \$5.22 per scholar. Thirteen different schools were held as against eleven last year. We paid 50 cts. per week for teaching four children at home in Sandwich Notch and 50 cts. for two scholars attending school in Moultonboro.

Your School Board have made 76 official visits and in compliance with the law give the following Statistical table and Treasurer's report:
